

...and please keep all the technical equipment behind the scenes! ...

...says your architect...

Whether mono, stereo or Dolby-Surround, our flat panel loudspeakers place the sound where it belongs. It comes from within the picture and the whole thing is completely invisible...

... and leaves everyone believing your architect is a magician.

Versions and options

Reflecting or matt white surface, frame natural aluminium

Installation directions

ML multimedia screens can be wall-mounted.

A & E Specifications

Description:

Flat-panel loudspeaker as projection screen, mono or stereo.

The loudspeaker system that works on the principle of a bending-wave transducer. The flat-panel membrane in an aluminium frame is set into vibration by an exciter that is mounted on the rear and, with the appropriate coating, also serves simultaneously as surface for front projections. Exciters connected via a patented stereo matrix for extension of stereo basis.

Dimensions: mm x mm x 44 mm
 Frequency range: 100 Hz – 18000 Hz
 Dispersion angle: 180° x 180°

Power handling: upon request

Manufacturer: ML Audio+Carbons
 Model: Multimedia
